

## Monthly Combined Practice Group Practices

Once per month (October through March) we will be holding combined Practice Group practices according to the schedule below. This means that all swimmers in Blue I will practice at one location, all White I at one location, all White II at one location, and all Black I at one location. Black II are unchanged.

The purpose of these combined practices is team bonding for swimmers and coaches. While extra travel is incurred for some swimmers on these days, we feel the benefits are worth it for these days. These practices have been done in years past with positive feedback. We encourage swimmers to take part in these practices.

**Please mark these changes on your calendar now, to avoid swimmers being dropped off at the wrong location.**

### Monday, October 12
